

Symposium on Dental Education at Moscow  
歯学教育に関するモスクワシンポジウム

Held by "Organization of the Education Process  
in A Higher Medical Educational Institution"

Introduction

SHIGEO KOBAYASHI

*Dean of Matsumoto Dental College*

The first international symposium for the academic exchange between Matsumoto Dental College and Moscow Medical Stomatological Institute was held in Moscow on March 24 and 25, 1993. One of the main discussions in this symposium was the dental education in Japan, Russia and Finland. The participants did positively discuss for the dental education in each country and they did carefully listen to each participant's statement as well as his/her opinion. It was a very meaningful and successful symposium for the first step of academic exchange. I have a confidence for the further development of academic exchange between two institutes.

The participants from Matsumoto Dental College were as follows :

SHIGEO KOBAYASHI (*Dean*)

TAKEHIRO CHINO (*Associate Dean, Department of Oral and Maxillofacial Surgery I*)

EIICHI YASUDA (*Director of Hospital, Department of Conservative Dentistry*)

KAZUO SUZUKI (*Department of Oral Histology*)

HIROSHI KASAHARA (*Department of Handicapped Patient*)
